Canvas Career
By Instructure

edutech

Deliver skills-based learning at scale.

Canvas Career is the skills-based LMS solution designed for adult learners. It helps organizations create, deliver, and measure learning programs that keep pace with shifting demands, without sacrificing quality.

With skills tracking, AI-assisted program creation, and data-rich analytics, Canvas Career turns learning into visible progress so learners stay engaged and leaders can see real outcomes.

What sets Canvas Career apart

- **Skills alignment & personalization:** Map learning to in-demand competencies and deliver role-based pathways that keep learners motivated and outcomes-focused.
- **Skills visibility & tracking:** Show learners (and leaders) the skills they're building in real time, making development tangible and measurable.
- **IgniteAI acceleration:** Use AI to reduce manual work, speed updates, and help teams scale programs faster while maintaining quality.
- **Outcomes and insights:** Real-time dashboards and reporting help prove impact, track ROI, and improve programs with clear, actionable data.
- **Automation & integrations:** Streamline operations with workflows and integrations (HRIS/CRM) that reduce admin work and speed up time-to-launch.

Measure what matters and prove impact

Move beyond completions. Track skills, engagement, and outcomes in one place. Then, share transparent reporting that ties learning to program goals and ROI.

Modern experiences built for adult learners

Deliver mobile-friendly, intuitive learning that’s easy to start and finish, with role-based experiences and the flexibility adults expect without adding complexity for admins.

Who’s using Canvas Career?

- Corporate and enterprise learning & development teams
- Government agencies and public sector training
- Continuing education/
- professional studies and non-degree programs
- Professional learning organizations (associations, credentialing, certification)
- Education services and career accelerators (bootcamps, academies, enablement)
