Canvas By Instructure

edutech

Simple to use. Easy to love.

Learn more

Canvas LMS is the central teaching and learning platform designed to adapt to the diverse ways educators teach and students learn. By reducing the friction of fragmented, legacy systems, Canvas brings clarity, consistency, and alignment to every learning experience– so institutions can focus less on managing technology and more on supporting teaching, learning, and student success.

Learning for all

Intuitive tools and workflows that empower educators to create accessible, equitable learning experiences. Functionality that supports personalized instruction and diverse learning needs at scale.

- **Module-first course structure**
- **Differentiated assignments**
- **Centralized calendar + to-do list**

Simplified educator workflows

Solutions that let educators focus on teaching, student success, and the learning experience— without being burdened by the technology behind it.

- **Speedgrader**
- **Message students**
- **Course analytics**

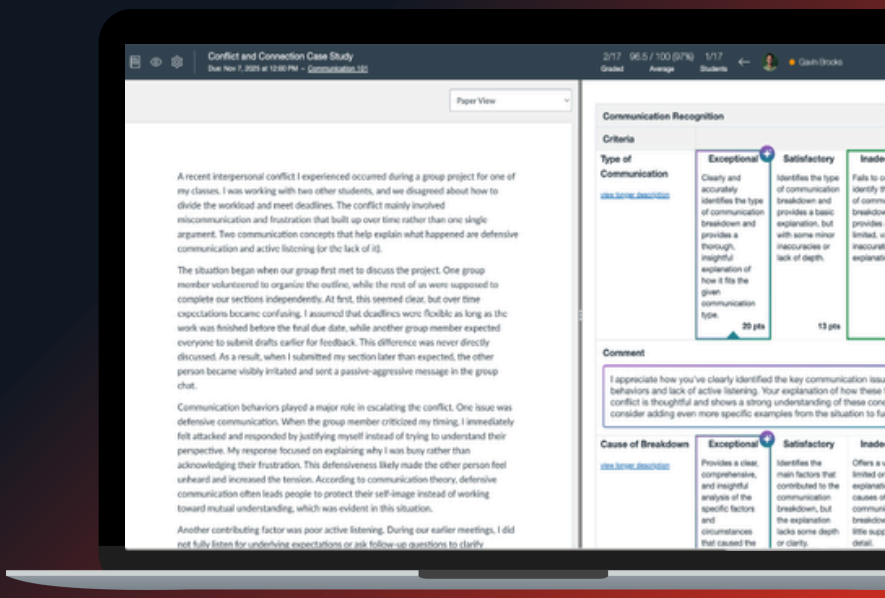

Administrative efficiencies

Streamline administrative tasks with customizable account structures, centralized course and content management, and seamless third-party integration across your institution.

- **Customizable sub accounts, roles+ permissions**
- **Flexible templating**
- **Simple LTI management**

Built for what's next

Unmatched openness

Built on a foundation of open technology and cloud scalability, Canvas LMS delivers exceptional performance while supporting millions of users worldwide.

- **Open API**
- **Network of 1000+ Partners**
- **LTI usage reporting**

Assessment and Feedback

Fair, consistent, and scalable assessments regardless of class size, instructional model, or student support needs.

- **Outcomes-based rubrics**
- **Video/audio feedback**
- **Submission tracking**

Intentional AI

Openness that extends to our AI approach. We keep educators in the driver's seat and empower them to leverage AI in innovative, policy- aligned ways.

- **Ignite AI**
- **AI transparency: Nutrition facts**
- **Integrate with preferred LLM**
